Set Your Own Price for Maximum Profits

Attract customers or achieve higher profits with low fares from a wide range of North American consolidators. With customer-pleasing content and the markup capabilities built into Galileo NetFares, you gain the leeway you need to price for steeper profits. Use your market knowledge to quickly set the right price for the greatest gain.

One Shopping Call Does It All

No lifting the telephone or searching through faxes and rate sheets. Galileo NetFares provides you with access to over 1 million value fares within seconds, so you can quickly zero in on the best fares for a wide variety of city pairs, markets or regions. Search all participating vendors simultaneously, or just the ones you choose, with a single query.

Speed Through Bookings with High Efficiency

Once you identify the right fare, the built-in reservation module lets you quickly enter booking details. Process credit card payments to complete the purchase — even apply individual payments for each passenger if needed. With Galileo NetFares, wholesale shopping is easier and more productive because you:

- Shop 24/7 through a browser-based application that never puts you on hold
- Easily search, compare, book and apply payment from within one application
- Quickly check fare rules and restrictions
- Automatically integrate PNRs into back-office systems for error-free processing

No Training Required

NetFares is so intuitive and simple to use, no training is required. The clear, user-friendly interface allows you to start productive searches immediately. There are no cryptic entries or special formats to remember. Plus no downloading or software installation is required.

Galileo NetFares is free to all travel agencies. Register through www.galileonetfares.com to start profiting from consolidator inventory today.
